WASHINGTON, DC – Today, U.S. Rep. John Campbell (R-CA) was appointed to serve on the House Committees on Financial Services, the Budget, and Veterans' Affairs.

U.S. House Speaker Dennis Hastert (R-IL) said, "I'm pleased to see John join these committees and expect he will be a valuable addition to each. His background as a CPA make him natural fit for Financial Services and the Budget Committees, and his desire to serve those who have served us make him an ideal selection for Veterans affairs."

"I'm thrilled by my appointment to all three of these important committees. I plan on hitting the ground running as I begin my work on each," stated Campbell.

Campbell, a CPA with twenty-five years of experience in the business world said, "The issues before the Financial Services Committee are critical to building a prosperous and free economy that gives every American an opportunity to succeed. I am looking forward to putting my background and first hand knowledge of these issues to work as a member of this committee."

"One of my top priorities is helping restore responsible spending to Washington, and that process begins with the Budget Committee. I am excited about this opportunity to help protect the taxpayers from the growing deficit and excessive spending," added Campbell. In the weeks ahead, he is expected to introduce legislation to help curb federal spending.
